

Can I have more than one SBOBET account?

Unfortunately no, you will not be able to use the same email address or same set of personal information to create duplicate or multiple accounts with SBOBET. Holding multiple accounts will be considered against our Terms & Conditions.

If you have registered for a SBOBET account previously but have forgotten your login name or password, please click on the [?] icon next to the password field to access our account assistance page in order to retrieve your login name or to reset your password.
