

Where can I view information on my previous transactions?

Your account statement records the transactions you have made previously such as your daily bet transactions, deposit or withdrawal transactions and your account balances. To view your account statement, please follow the steps below.

1. Sign in to your SBOBET account and click on the **Statement** link located at the top of the page.
2. Select the period you wish to view by toggling between the date range tabs located at the top right corner of the statement page.

The first tab on the right shows the transactions made in the current week; the middle tab shows the transactions made in the remaining days of the current month and the last tab on the left shows transactions made in the previous month.

3. To view the bets you have made on a specific day, search for the date you wish to view and click on the date.

Bet transactions are tagged as “Betting” under the remark column in the statement page.

4. The statement bet list page opens with the list of the bets you have made for that particular day. To go back to your account statement, click on the **Back** button.
