

How do I change my security question and answer?

To change your security question and answer, please follow the steps below.

1. Sign in to your SBOBET account and click on the **Account** link at the top of the page. Navigate to the **Change Security Question** page.
2. Select your current security question and enter answer.
3. Update your new security question and answer.
4. A confirmation message is displayed once you have successfully changed your security question and answer.
